

BOH Swim Team Records (Yards)

From the mid 1950's through 1989 BOH swimmers practiced and competed, when we hosted a swim meet, in a 25 yard pool. The other five SICSA clubs had 25 meter courses. I say courses because not everyone had a pool. PLCC had a 25 meter course set up in the lake.

25 yards is about seven feet shorter than 25 meters. Since one measurement of improvement is to compare times from one meet to the next, it was difficult for swimmers, coaches, and parents to compare times from a home meet and an away meet.

Every six years, when BOH hosted the Finals, some of the fastest swimmers from other clubs were disappointed that they would not have an opportunity to set a SICSA (meter) record. In fact we use to keep two sets of records, a meter set and an yard set.

Project '88 was responsible for many improvements around BOH, including a new 25 METER pool. Since the pool opened on July 1, 1989, our swimmers have only competed in 25 METER races.

The following Records were set during the time that we had a yard pool:
